Projects

AI Assistant

Description: A virtual assistant project designed to help with reminders, tasks, and real-time conversations.

Technologies: Python, AI Concepts

Role: Designed and developed the assistant system.

Outcome: Improved understanding of AI assistant development.

LMS Reminder System

Description: A smart system that automatically checks LMS updates and assignment deadlines.

Technologies: Python, Automation

Role: Developed automation and reminder features.

Outcome: Helps students manage academic work efficiently.

Portfolio Website

Description: A responsive personal portfolio website.

Technologies: HTML, CSS

Role: Designed and developed the complete website.

Outcome: Successfully showcases academic and technical skills.

Achievements & Certifications

Online Courses

Completed online courses related to Artificial Intelligence, Python programming, and Web Development.

Hackathons & Competitions

Participated in university coding competitions and technology events to improve teamwork and technical skills.

Recognition

Recognized for creativity, dedication, and continuous learning in academic and technical activities.
